How to Reduce Contact at Your Salon or Spa

With Booker and Bowtie, the AI receptionist, on your side, you can minimize physical contact without losing the personal "touch" your clients love.

Booking

Clients can book how they like: through your website, text, or an app. Their credit card and tip preference are saved *(for a contactless checkout later)*.

> **Tip:** Let your AI receptionist book, upsell, and answer client questions 24/7.

Previsit

Automatically send appointment details and any forms and waivers for clients to fill before they even arrive *(and eliminate shared clipboards and tablets)*.

Check-in

Let clients check in from outside over text *(bye, germ-y waiting area!)*.

Maggie: Hi, I'm here!

Bowtie: Got it! I've checked you in and let the staff know you've arrived.

Maggie: 👍

Bowtie: Hey Maggie! We're ready for you, come in! 🙂

Service

Empower service providers to sell retail and add-ons in the moment *(letting clients skip the front desk)*.

Checkout

With card and tip preferences on file, staff can check out clients efficiently *(and send clients on their safe way faster than ever)*.

> **Tip:** Keep your staff safe by having them use personal devices for adding product and extras to the ticket, checking out clients, and even clocking in and out for the day.

We miss you!

Let's get you feeling fab again.

Book a facial or massage this month and get **10% off!**

Book Now

Post visit

Still glowing from their appointment, staff can rebook clients from anywhere or Bowtie can follow up automatically via SMS.

> **Tip:** Win clients back, capture valuable feedback, and encourage positive reviews with email and SMS marketing tools.

Minimize contact while making your biggest impact yet with Booker and Bowtie.
